

Browser Game Narrative Assignment

Student Name: _____

Game Title: Library Escape

1. Game Concept (Core Loop)

The player explores a magical library, answers quiz questions to unlock doors, avoids a ghost librarian, and reaches the final exit before sunrise. Each correct answer provides Knowledge Points that unlock small power-ups.

2. Narrative Storyline

Protagonist:

Kai – a curious student who loves books and learning.

Setting:

The story takes place in a massive enchanted school library that becomes alive at night. Books float, shelves move, and rooms rearrange themselves after closing time.

Main Objective:

Kai must escape the library before sunrise by unlocking five magical doors using knowledge and quick thinking.

Primary Conflict / Obstacles:

The library is guarded by a Ghost Librarian who chases players when they make mistakes or create noise. Players must avoid moving bookshelves, dark rooms, timed quiz challenges, and being caught three times.

3. Short Narrative Version

Kai stayed late to finish homework but accidentally fell asleep in the school library. When waking up, the doors were locked and the library had transformed into a magical maze. A Ghost Librarian now guards the halls. The only way out is to prove knowledge, solve puzzles, and escape before sunrise—or remain trapped forever.

4. Peer Feedback Received

- Add rewards for correct answers.
- Add time pressure to increase excitement.

5. Refinement Based on Feedback

Correct answers now give Knowledge Points that unlock speed boosts and hiding spots. A sunrise countdown timer adds urgency and tension to gameplay.
